A LITTLE MORE ABOUT MYSELF

Final-year Data Science & Business Analytics undergraduate with a strong foundation in data analysis, machine learning and business intelligence. Experienced in analysing operational and customer datasets using Python, SQL, Excel and Tableau to generate actionable insights and support data-driven decision-making. Seeking a graduate Business Analyst or Data Analyst role where I can apply analytical and problem-solving skills to drive business improvements.

EDUCATION

University of London

B.Sc. Data Science and Business Analytics

Aug 2023 – Sep 2026

Availability: July 2026 onwards

Expected Graduation: September 2026

(Grades available upon release)

Yishun Innova Junior College

Singapore-Cambridge General Certificate of Education Advanced Level

Feb 2021 – Dec 2022

Peirce Secondary School

Singapore-Cambridge General Certificate of Education Advanced Level

Jan 2017 – Dec 2020

WORK EXPERIENCE

Liho

Part-Time

Mar 2023 – July 2023

- Trusted to independently manage outlet operations early in employment, overseeing opening and closing procedures, customer service, beverage preparation, and cash handling.
- Provided operational support across multiple outlets, adapting quickly to different teams and maintaining service quality during peak periods.
- Processed customer orders and payments accurately in a fast-paced environment while ensuring efficient service and operational accuracy.
- Collaborated with team members to maintain smooth daily operations and deliver a positive customer experience.

DATA & ANALYTICS PROJECTS

Projects focused on analysing real-world datasets, supporting operational and business decision-making.

Machine Learning & Predictive Analytics

(R)

Applied machine learning techniques across three real-world datasets, demonstrating proficiency in unsupervised learning, regression and classification.

- Performed clustering analysis on a wine quality dataset using PCA, K-Means Clustering and Hierarchical Clustering to uncover hidden patterns.

- Developed predictive regression models to estimate housing prices through feature selection, hyperparameter tuning and model evaluation.
- Compared multiple classification models for lung cancer prediction using Accuracy, F1-score and ROC AUC to identify the most effective approach.

Consumer Behaviour & Market Research Analysis *(Excel | Statistical Analysis)*

Designed a market research proposal for Apple to evaluate consumer behaviour and support strategic business decisions.

- Developed research objectives, survey methodology and sampling strategies to ensure reliable data collection.
- Proposed statistical techniques including Factor Analysis, Cluster Analysis, ANOVA, Regression and t-tests to evaluate purchasing behaviour and pricing perceptions.
- Produced recommendations to support pricing strategy, customer retention and product positioning.

Flight Delay Data Analysis & Business Insights *(Python | R | SQL)*

Analysed flight delay datasets using Python, R and SQL to answer business questions and generate actionable insights.

- Cleaned and transformed operational datasets to improve data quality prior to analysis.
- Queried structured data with SQL and analysed trends using Python and R to investigate operational performance.
- Produced statistical summaries and visualisations to communicate findings and support business recommendations.

Interactive Business Intelligence Dashboard *(Tableau | Excel)*

Designed an interactive Tableau dashboard to support sales and profitability analysis through data visualisation.

- Developed 15 worksheets and 6 interactive dashboards to monitor sales, profitability, regional performance and product trends.
- Built dashboards using calculated fields, parameters and interactive filters to evaluate pricing and sales growth scenarios.
- Created KPI visualisations and predictive metrics to support pricing decisions and identify performance improvement opportunities.

CO-CURRICULAR ACTIVITIES IN SEC SCHOOL AND JC

Library Council (JC)

Feb 2021 – Apr 2022

- Write book reviews and summaries weekly
- Prepare for library activities and thematic book displays for library week

Show-Choir (Sec Sch)

Jan 2017 – Jun 2020

- Participated in yearly “Be-dazzled” competition and managed to obtain the Gold award in 2019
- Performed as a CCA during school events

SKILLS/INTERESTS/OTHERS

Language Fluency

- English and Mandarin: native proficiency

Professional Certificate

- Food Safety Course Level 1 by Wong Fong Academy

Technical Skills

Programming & Query Languages

- Python
- R
- SQL

Data Analysis & Business Intelligence

- Microsoft Excel (*Pivot Tables, Pivot Charts, Power Query, XLOOKUP/VLOOKUP, Solver, Conditional Formatting*)
- Tableau
- Dashboard Development
- Data Cleaning & Preprocessing
- Exploratory Data Analysis (EDA)
- Statistical Analysis

Machine Learning

- Regression
- Classification
- Principal Component Analysis (PCA)
- K-Means Clustering
- Hierarchical Clustering
- Model Evaluation

Business & Research

- Market Research
- Consumer Behaviour Analysis
- Business Insights

Tools

- Git
- Microsoft Office
